

Catch more salmon with greater ease.

The amazing secret professional guides use to constantly out-fish herring three to one.

"The new Brad's Super Bait Cut Plug is like herring fishing on steroids" says Shane Magnuson Upper Columbia Guide Services.

"I'll take the best herring fisherman and out-fish them three or four to one with the new Brad's Super Bait Cut Plug... They will very soon be a Super Bait fan" says Jerrod Gibbons also of Upper Columbia Guide Services.

"I caught 280 kings last year on Brad's Super Bait... It's the only thing you will see me running on my boat." You can call Shane at 509-630-5433 or Jerrod at 509-429-1714 and they will tell you themselves.

The experts agree the new Super Bait Cut Plug is the ultimate lure for catching salmon. But you don't have to be an expert to catch more salmon with this new lure. The novice fisherman can now go out and catch monster sized fish because they just can't resist this lure. Fishing with the Brad's Super Bait Cut Plug is also much easier than herring.

Pro guide Kelly Short says "The new Brad's Super Bait Cut Plug is the hottest lure I have seen in many years...maybe ever" He further states "The Brad's Super Bait Cut Plug, like it's counter part the original Super Bait is a larger bodied bait, and it rolls just like a green label cut plug herring and involves no mess and fuss with cutting and curing bait. The Brad's Super Bait Cut Plug helps anglers get the perfect herring like roll. The perfect angle is already built in and on heavy tides or with a strong current; I don't have to worry about my bait getting torn off." You can reach Kelly at KellyShortOutdoors.com.

"This new lure makes fishing the herring bite easier than ever, I don't have to cure bait, cut bait, or wonder if that last short strike just mangled my herring." Say's Shane Magnuson. "I rig the Super Bait Cut Plug and the original Super Bait just like I would a herring. It can be run with a flasher and diver, flasher and downrigger, or just a dropper lead. It is so versatile and can be used for Chinook, Coho or even land locked Chinook in a lake." Anglers are also finding these lures to produce well on big trout in lakes.

The secret to both these lures is the scent.

No matter what scent you use eventually herring just smell like herring. Scent as well as actual bait can be added to the patented "Split Cavity Design". Some guides use herring, sardine or tuna filleted or chopped along with their favorite scent.

Patented "Split Cavity Design"

"I fished Wells Dam with herring for two to three hours without a bite. I switched to the original Brad's Super Bait and had two nice kings in the boat in less than an hour." Says internationally known fishing columnist Dave Graybill, The Fishn' Magician.
